Worst Storm Ever Known on Great Lakes

The shores of Lake Superior, Lake Huron, and Lake Eric are strewn with the wreckage of a three day's gale and snow storm, which ost the lives of nearly a hundred persons, turned bottom up in midwith its crew, wrecked or grounded numerous craft, and caused a pro-perty loss as yet unestimated, but which will run into millions. The details of the storm which literally awant Take Superior to the castern shore of Lake Eria became known Tuesday, when survivors began arriving in various ports with tales seldom equelled on the Lakes.

It was impossible even to estimate the lose to vessels wrecked or damaged by grounding. Shippers in detroit estimated the loss Lake Huron and the St. Claire river alone to be several hundred thousand dollars. Three of the wrecked steamers increase the loss by \$500,000, while the acores of aller craft driven ashore in Lake Superior and Lake Erie will send the total much higher.

Mexico City, Nov. 12. General Huerta tacitly refused tonight to accede to the demands of the United States expressed in an ultima tum sent to him by President Wilson's personal representative John Lind. General Huerta was notified early in the day that unless he ned an answer by six o'clock to the effect that he would preven the newly-ele convening and make this answer to the members of the diplomatic corps by midnight, the United States would have no further parleying with the Mexican govern-

Mr. Lind waited until six o'clock and received no answer. He then made arrangements for his departure on the train leaving for Vera Cruz at eight o'clock. It was an nounced, however, that General Huerta had one chance more, that if he took the action demanded by midnight the fact that he failed to reply to Mr. Lind within the time specified would be overlooked. Mr. Lind could see no good reason to suppose that Huerta had intenled to accede.

Nelson O'Shaughnessy, charge d'affaires, was the messenger who delivered the ultimatum. He was unable to get into personal touch with General Huerts, but left the message at the president's office It is intimated tonight at the pal ace that General Huerta had not received the note in time to give it full consideration. This, however, did not appear to Mr. Lind a valid excuse for procrastination

All sorts of rumors were current. Many persons who were contemplating leaving the country in the near future, made hurried preparations and caught the night train to Vera Cruz, preferring to wait for steamer accommodations there, for steamer accommodations to remaining in the capital.

Mr. Lind was said to have re-ceived messages from Vera Cruz, urging him to return at once, for fear the railroad would be cut.

The uncasiness was accentuated by the receipt by a number of per-

STRAIN TELLING PREMIER BORDEN

Ottawa, Nov. 2.—The sudden de parture of Premier Borden on Friday for a six weeks' rest in the sou thern states, is on doctors' orders nier's health has suffered severely during his two years in ofce, consequent upon the constant stress and worry of party leader ship, under peculiarly embarrassing and unsatisfactory conditions Insomnia and nervous breakdown have made it imperative for him to seek refuge from the troubles and importunities of office with a view to recuperating so as to be in shape planning more absences from the typical of the present Conservative for what promises to be for the capital. government a most trying session of parliament. His destination is not officially announced, in order that he may be assured of as much rest as possible. It is understood, however, that he will spend some time at Hot Springs, Virginia, where the golding is good. During his absence from the capital Hon George E. Foster will be acting premier

The prime minister had a six weeks' holiday in the summer at St. Andrews, N. B. This seconed prolonged absence from the capital. physicians have ordered him to who dared differ from them, when belated sessional preparations should occupy the time of the cabinet, emphasizes a belief that finds frequent expression in political circles here. That belief is that, were a satisfactory successor in sight, Mr. Borden would gladly resign the cares of the premiership and of party leadership. It is cerand of party leadership. It is certain that he has little zest for the
political game as it is being played
by the present colleagues. Lack

will make him fit for work again,
inst hickering and release the inet bickerings and jealo usies, the necessity for political side stepping and trimming to satisfy conflicting elements of the government suplack of strong men and of loyal support within the cabinet and the growing signs of popular and of party disfavor with the present administration all harass and worry the premier.

The result in South Bruce has caused him further worry in the shape of complaints and protests and conflicting advice from the Conservative ranks in all parts of the country. He has temporarily escaped from it all but the real cause of his physical ills will again meet him on his return. Con servative leaders here are already speculating as to how long he can stand the strain and who could be brought in to succeed him. To the latter query there is no satisfactory answer. There is no other acceptable leader in sight, even as a compromise. Hon. Robert Rogers, Sir Richard McBride and Hon. George E. Foster, are the three men most prominently suggested To Mr. Rogers, there is the obvi-ous objection. Sir Richard Mc-Bride's stock is not nearly as high as it was. Moreover his ambition now directed toward British politics. He will brobably leave the British Columbia premiership to Hon. W. J. DOMAIN.

The promise made by Mr. Borden, prior to the last general checking, that one of the first acts of his party-on-being placed in power would be to hand over to the manufactuate, and finally New Zealand the manufactuate, and that there is no need of impatience. The that the transfer will be made all in good time, and that there is no need of impatience. The dunkindest cut of all," however, occurred recently, when the premiers of the first of the provinces, Sir R. P. Roblin, Hon Walter Scott and Hon. A. L. Sit con, waited upon Mr. Borden, real made plantic, has brought the question to a stage where Premier Borden will be compelled to state his position publicly and definitely. There are many reasons why the public domain of Manitoba, Saskatchewan and Manitoba, Saskatchewan and Anather is that it is should be done, is one very good reason. Another is that it is should be done, is one very good reason. Another is that it is should be done, is one very good reason. very good reason. Another is New Zealand has a dreadthat it would place the Prairie nought cruiser, has abandoned that it would place the Prairie lought cruiser, has abandoned Provinces on an equality with hother portions of the Dominions. The other provinces control their own public domain. In the Prairie Provinces all water powers, Navy. Canada started in 1910, under timber, mitagrials fish, and Crown lands (except swamp lands in Manitoba) are the property of the whole Dominion, and are controlled with the control of manitona) are the property of the whole Dominion and the mines will be dominioned. The Dominion and the mines will be the Borden between the hold its own with the bominion, and the mines will be the Dominion, and the mines will be the Borden between the provinces to Ottawa, and belong as much to Ontario and Nova Scotia and Prince Edward Island as they do to Manitoba, the mining royalties will go to the Dominion, and the mines will be ablete to Dominion, and the mines will be ablete to Dominion regulations, but the Province will be called power, Canada, in naval matters, is farther behind than it was five years ago, with little subject to Dominion regulations, but the Province will be called inpon to build roads, preserve the public health and maintain law and order. This is not justice, and Premier Borden will find that it is not-even good politics to make promises to the West and then neglect to carrount.
